PROFILE

Information Technology student with hands-on experience in developing full-stack web application. Skilled in building responsive user interfaces, implementing secure authentication systems, and designing scalable web solutions. Passionate about frontend development and modern JavaScript frameworks, with strong foundation in data structure problem-solving and software development principles. Seeking an opportunity to contribute to innovative web applications while gaining industry experience.

EDUCATION

B.Tech in Information Technology (2023 – 2027)

Madhuben And Bhanubhai Patel Institute of Technology, CVM University, New Vallabh VidhyaNagar | CGPA: 9.42/10.0

Class XII (March 2023)

Saraswati Education and Medical Trust, Borsad | Percentage: 79.84

Class X (March 2021)

The H. M Patel English Medium School, Dharmaj | Percentage: 90.5

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js, JWT Authentication

API Integration: Axios, Fetch API, REST APIs

Database: MySQL, MongoDB, PostgreSQL

Tools & Technologies: Git, GitHub, Postman, Cloud Database Integration

Coursework: Data structure, OOP, DBMS, OS, CN, Software Engineering

PROJECTS

MediSure360 – Pharmacy Inventory & Billing Management System

Developed a responsive pharmacy management web application using React.js and modern component-based architecture. Built reusable UI components for inventory management, billing, dashboards, and reporting modules. Integrated REST APIs using Axios for medicine management, billing operations, and analytics data. Implemented JWT-based authentication and role-based access control for secure access. Optimized user experience with dynamic charts, search functionality, stock alerts, and responsive layouts across desktop and mobile devices.

Tech: React (Axios), Node.js, Express.js, MongoDB, JWT Authentication, Chart.js, REST APIs

AgroConnect – Product Management Platform

Built a responsive product management platform enabling farmers to add, update, search, and manage agricultural products. Developed reusable React components and integrated RESTful APIs using Axios for seamless frontend-backend communication. Implemented secure JWT-based authentication and optimized data handling with React Hooks and Context API concepts. Focused on clean UI, accessibility, and responsive design for better usability across devices.

Tech: React (Hooks, Axios), Node.js, Express.js, MongoDB, JWT Authentication, REST APIs.

CERTIFICATION & ACHIEVEMENTS

- Academic Award** – 2nd sem (3rd rank)
- Hackathon Participation:** Smart India Hackathon (SIH) 2025
